SUMMARY

Motivated Information Technology student with internship experience in web development and hands-on exposure to software application development. Skilled in HTML, CSS, SQL, MySQL, and responsive web design with basic knowledge of Java and Python. Completed projects and certifications in SQL, Data Analytics, and Artificial Intelligence Fundamentals. Strong problem-solving, teamwork, adaptability, and communication skills with a passion for learning and building practical technology solutions.

EDUCATION

- | | |
|--|---|
| • Global Institute of Engineering and Technology
B.Tech-Information Technology CGPA: 8.6 | Melvisharam, Ranipet
2022-2026 |
| • Bhel Ramakrishna Hr Sec School
Higher Secondary (HSC): 69% | BHEL, Ranipet
May-2022 |
| • Govt High school
Secondary Schooling (SSLC): 82% | Sipcot, Ranipet
April-2020 |

SKILL SUMMARY

- **Technical Skills:** Python, Java, MySQL, HTML, CSS
- **Tools:** Git, VSCode, Excel, Power BI
- **Soft Skills:** Willingness to Learn, Team Collaboration, Adaptability, Communication
- **Languages Known:** English, Tamil, Hindi

WORK EXPERIENCE

Java Full Stack Intern | FEMOTOSOFT TECHNOLOGIES (Aug 2025 - Sep 2025)

- Applied front-end development principles to convert UI/UX designs into functional and responsive web interfaces.
- Gained practical understanding of web development processes, technical limitations, and project implementation concepts.

Web Development Intern | INTERNPE (July 2025 - Aug 2025)

- Completed a one-month internship focused on front-end and back-end web development.
- Applied HTML, CSS, JavaScript, and responsive design principles to develop functional web interfaces.
- Collaborated in testing, debugging, and improving user experience across web applications.
- Demonstrated strong problem-solving and development skills throughout the internship.

PROJECTS

CreditIQ — AI-Based Credit Risk Analysis Platform

- Developed a credit risk analysis web application using Python, Streamlit, and Scikit-Learn.
- Built a Random Forest model with 93.19% accuracy using SHAP & LIME for explainable predictions.
- Implemented real-time prediction, CSV upload, and SQLite database storage.

Instant Meeting Notes Generator

- Created a web application that instantly generates and formats meeting notes using web development concepts.
- Designed a user-friendly interface with real-time input handling and text formatting.
- Applied front-end interaction concepts, event handling, and local storage concepts to improve usability

CERTIFICATES

- | | |
|---|-----------------|
| • SQL (Intermediate) HackerRank | May 2026 |
| • Microsoft Excel (SelfLearning) | Mar 2026 |
| • Power BI Workshop | Mar 2025 |
